It's the Island calling

Family Practice Opportunities

Vancouver Island, B.C.

Your career can be a demanding one...so why not consider a location where the benefits are naturally distracting?

Offering a temperate climate, expansive natural beauty, abundant attractions and cultural activities such as theatre and concert productions, as well as year-round recreation ranging from golf to hiking, kayaking, fishing, boating and winter skiing...Vancouver Island has it all.

Current full-time Family Practice opportunities are available on Galiano and Gabriola Islands, and in Ucluelet and Port Hardy. Each community provides its own unique characteristics and a quality of life on Canada's West Coast second to none.

Rural incentives may include: \$10,000 - \$20,000 recruitment incentive, \$5,000 relocation, fee-for-service premiums, annual flat fee retention payments, rural CME and a Rural GP Locum Program. Port Hardy and Ucluelet are designated Family Physicians for BC (FPs4BC) communities. This program offers up to a maximum \$100,000 in funding for a range of options including debt repayment, practice start up and new practice supplement.

View all our current opportunities at: www.viha.ca or contact us directly for more information.

Central Community Health Centre PHYSICIAN

At the Central Community Health Centre we are dedicated to wellness for all. This means we take a holistic view of our clients' health with a unique model of care. It also means we offer a great lifestyle for our physicians – salaried positions, support of an interdisciplinary team, office management and reasonable office hours, comprehensive benefit package including pension.

If you are interested in client-centred healthcare, working with a dedicated and energetic interdisciplinary team; if you want to make your mark through innovative approaches to healthcare, disease prevention and health promotion, we invite you to take a closer look.

The Central Community Health Centre (CCHC) is located in the city of St. Thomas in the heart of Southwestern Ontario. This area of Ontario, Canada is known for its wide-open spaces, streams, lakes, hiking and bicycle trails, and friendly people who operate family farms, run small businesses and work in a variety of industries. We are easy to get to – just minutes from 401 Highway, within minutes to London, and very close to Kitchener-Waterloo, Toronto, Hamilton or Windsor. Elgin County has a network of social service agencies and community hospitals all of which are enthusiastic supporters of the CCHC.

You will work with a committed team of professionals – nurse practitioners, registered nurses, dietitian, social worker, health promoter, community outreach worker and a dynamic administrative team. Our physicians have the support of the primary health care team so together we can address the complex needs of our clients. Community services and educational programs (e.g. diabetes management, smoking cessation, nutrition and pre-natal) are all designed to help clients take charge of their health.

CCHC offers a most generous compensation package including salary, signing bonus, benefits including pension, support for continuing education, assistance with spousal employment, and moving assistance. We are open to flexible hours, including part-time hours.

For more information contact jwiley@centralchc.com
or call 519 633-7989, ext. 403 to speak to Judith

 Interior Health

There's MORE to HPV
than cervical cancer.

GARDASIL®:
The **QUADRIVALENT HPV** vaccine.
Designed to help protect against
infection from HPV types 6, 11, 16
and 18, and the diseases they cause:

- CERVICAL CANCER
- VULVAR CANCER
- VAGINAL CANCER
- GENITAL WARTS IN MALES AND FEMALES
(only those caused by HPV types 6 and 11 in males)

The **ONLY HPV**
vaccine indicated
for **GENITAL**
WARTS in females
and males.*

INDICATIONS AND CLINICAL USE

GARDASIL® is a vaccine indicated in girls and women 9-26 years of age, for the prevention of infection caused by the Human Papillomavirus (HPV) types 6, 11, 16 and 18, and the following diseases associated with these HPV types: cervical, vulvar and vaginal cancers, genital warts, cervical adenocarcinoma in situ (AIS), cervical intraepithelial neoplasia (CIN) grades 1, 2 and 3, and vulvar and vaginal intraepithelial neoplasia (VIN/VaIN) grades 2 and 3. GARDASIL® is indicated in boys and men 9-26 years of age for the prevention of infection caused by HPV types 6, 11, 16 and 18, and genital warts caused by HPV types 6 and 11.

SELECTED IMPORTANT SAFETY INFORMATION

The most commonly reported vaccine-related injection-site adverse experiences in clinical trials with GARDASIL® in females (n = 5,088), amorphous aluminum hydroxyphosphate sulfate (AAHS) adjuvant-containing placebo (n = 3,470) and saline placebo (n = 320), respectively, were pain (83.9%, 75.4%, 48.6%), swelling (25.4%, 15.8%, 7.3%), erythema (24.7%, 18.4%, 12.1%), and pruritus (3.2%, 2.8%, 0.6%). The most commonly reported vaccine-related systemic adverse experience in females was fever: 10.3% for GARDASIL® (n = 5,088) vs 8.6% for AAHS adjuvant- and non-AAHS adjuvant-containing placebo (n = 3,790). The most commonly reported vaccine-related injection-site adverse experiences in clinical trials with GARDASIL® in males (n = 3,092), AAHS adjuvant-containing placebo (n = 2,029) and saline placebo (n = 274), respectively, were pain (61.5%, 50.8%, 41.6%), erythema (16.7%, 14.1%, 14.5%) and swelling (13.9%, 9.6%, 8.2%). The most commonly reported vaccine-related systemic adverse experience in males was headache: 7.5% for GARDASIL® (n = 3,092) vs 6.7% for AAHS adjuvant- and non-AAHS adjuvant-containing placebo (n = 2,303).

This vaccine is not intended to be used for treatment of active external genital lesions; cervical, vulvar or vaginal cancers; CIN, VIN, or VaIN. This vaccine will not protect against diseases that are not caused by HPV. Routine monitoring and Pap test should continue to be performed as indicated, regardless of GARDASIL® administration. Pregnancy should be avoided during the vaccination regimen for GARDASIL®. As for any vaccine, vaccination with GARDASIL® may not result in protection in all vaccine recipients. Syncope (fainting) may follow any vaccination, especially in adolescents and young adults. Syncope, sometimes associated with falling, has occurred after vaccination with GARDASIL®. Therefore, vaccinees should be carefully observed for approximately 15 minutes after administration of GARDASIL®.

PLEASE CONSULT THE ENCLOSED PRESCRIBING INFORMATION FOR INDICATIONS, CONTRAINDICATIONS, WARNINGS, PRECAUTIONS AND DOSING GUIDELINES.

*Comparative clinical significance has not been established.

When you talk
to your patients
about

HPV

SELECT GARDASIL® TO HELP PROTECT AGAINST HPV types 6, 11, 16 and 18,
and the diseases they cause:

- CERVICAL CANCER
- VULVAR CANCER
