

Society of Rural Physicians of Canada
27TH ANNUAL RURAL AND REMOTE MEDICINE COURSE
Halifax Nova Scotia • Halifax Convention Centre
APRIL 4 - 6, 2019

Dr. Wade Mitchell

SESSION 213

Skin Cancer 101

General overview of an approach to skin lesions ie) benign/malignant (not rashes) in rural primary care practices.

1. Provide an overview of basic dermoscopy and how it can aid in determining which lesions to biopsy or simply follow.
2. Review benign vs malignant lesions both non-pigmented and pigmented.
3. Discuss approaches to biopsy and treatment - current consensus on margins for different skin cancer types.
