

DISCUSSION OF PALLIATIVE CARE AND PARTICULARLY MAID

An account of my experiences with MAID and the difficulties, challenges, beauty and rewards that come with it, followed by discussion.

1. Participants will be able to reflect on first hand experiences with MAID 2., Participants will be able to share and reflect on their experiences 3. We will explore our role in MAID, how this has made us feel and how our patients and their families have felt 4. The learner will reflect on their own practice, on their comfort or discomfort and on the challenges of integrating MAID into the spectrum of care offered in end of life
