Hospitalist Opportunities in Nova Scotia

Locations
St. Martha’s Regional Hospital, Antigonish, Nova Scotia

Opportunity
St. Martha’s Regional Hospital (SMRH), in Antigonish, is seeking hospitalist physicians to join their team. There is opportunity for applicants to engage in research and/or have medical teaching positions with Dalhousie University, should that be of interest. The current remuneration arrangement is a set daily rate as per the provincial hospitalist agreement with a stipend plus fee-for-service billings for on-call work.

At SMRH, 2.5 hospitalist lines and a group of community family physicians that admit their own patients currently cover inpatient care outside the ICU. Each hospitalist line consists of approximately 15-18 patients. Patients are spread across several units in the hospital and composed of medical patients outside the ICU, stroke patients in our regional stroke unit, and geriatric rehabilitation unit. We have two physicians covering a full line and one covering a half line on 7-day rotations. Daytime coverage is 8am to 5pm and on-call coverage is 5pm to 8am, split between physicians covering the service for the week. If you are interested in a broader scope of practice that includes, but is not limited to hospitalist work, there are many possible opportunities in Antigonish and surrounding communities.

License and Eligibility
Must hold or be eligible for licensure with the College of Physicians and Surgeons of Nova Scotia.

Incentives
Nova Scotia Health Authority offers a comprehensive site visit program and will cover eligible relocation expenses up to $10,000.

About St. Martha’s Regional Hospital and Antigonish
St. Martha’s Regional Hospital serves a population of nearly 40,000 from Antigonish, Guysborough, and surrounding communities. With approximately 90 beds for all in-patient care, Family Physicians at St. Martha’s are joined by our colleagues in General Surgery, Internal Medicine (general and subspecialty), Geriatrics, Hospitalists, Psychiatry, Pediatrics, Obstetrics and Gynecology, Plastic Surgery, Ophthalmology, Otolaryngology, Anesthesia, Radiology (U/S, CT, MRI, ECHO), Palliative Care and visiting Oncology and Neurology.

In Nova Scotia the view of a lifetime lives around every corner, and the friendliest people live in every community. Hike, cycle, swim, golf – all in an almost unreal beauty.
