Locum to Permanent Hospitalist Opportunities

About the Opportunity

The Aberdeen Hospital, in [New Glasgow](#), is seeking hospitalists to join their team. There is an opportunity for applicants to engage in research and/or have medical teaching positions with Dalhousie University, should that be of interest. The current remuneration arrangement is a set daily rate as per the provincial hospitalist agreement with a stipend, plus fee-for-service billings for on-call work. At the Aberdeen, 1.5 hospitalist lines and a group of community family physicians that admit their own patients, will cover inpatient care outside the ICU. Each hospitalist line consists of approximately 18 patients. Patients are spread across several units in the hospital and are composed of medical patients outside of the RCU and telemetry and surgical patients attended to with support of appropriate specialist physicians. Daytime coverage is 8am to 5pm and on-call coverage is 5pm to 8am, not exceeding 1 in 4 nights. If you are interested in a broader scope of practice that includes, but is not limited to hospitalist work, there are many possible opportunities in New Glasgow and surrounding communities.

Physicians and all staff at the Aberdeen Hospital take great pride in providing high-quality care to patients and value collegiality in the workplace. Also, the Aberdeen Hospital has the most active cross-specialty, accredited Continuing Medical Education (CME) program in the province. Additionally, they offer regular medical staff social events. The Aberdeen has an extremely helpful, efficient, and friendly staff who make working here a pleasure.

Responsibilities

Duties include full scope of practice as a hospitalist providing care to patients within the Northern Zone and participating in call, Physician will be responsible to the Zone Department Head of Family Practice for their professional responsibilities and quality of practice, and will operate within the Medical Staff Bylaws of the Nova Scotia Health Authority
